**COMFORTABLE SEAT** High back seat has lumbar support and molded armrests. Its red double stitching gives a high-end look with black, dark grey, and red accents.

**FULLY WELDED TUBULAR FRAME** One glance and you can see its strength and ruggedness. Its wide front rail distributes weight for superior balance. Also supports the deck lift for easy engagement. Includes a limited lifetime warranty.

**PARKER TRANSAXLES** Parker HTJ transaxles deliver a top speed of 11mph and have a 12cc pump. Filters are easily accessed from the rear for easy maintenance. This is one complete system which eliminates the need for additional parts, saving both time and money.

**X-FACTOR® 3** Made with 7-gauge steel and specially designed for better grass dispersion thanks to its larger discharge opening, integrated baffles, and sloped front end. Reinforced spindle mounts protect blade operation while the six recessed anti-scalp wheels protect the turf on uneven terrain. Its flip-up rubber chute makes it easy to drive through gates and around obstacles. A 5/8" leading edge provides extra protection to the shell while stabilizer links keep vibration to a minimum. Includes a limited lifetime warranty.

**DIAL HEIGHT ADJUSTMENT** The dial wheel allows easy height adjustment between one and five inches. Toolless adjustable foot pedal with internal assist springs helps lift the deck with little effort.
