

PRO TURN MACH ONE

**CUTS ANY GRASS
DOWN TO SIZE.**

Thick wet grass. Overgrown, neglected properties. Tough stalky grass. No matter which is in its path, they're all considered lunch to the Mach One. It can easily handle them all because its tunnel chamber deck has a unique design to direct clippings away from the blades after they're cut to keep them from bogging down.

MODEL - 992515

31 HP / 999 CC Kawasaki® FX921V Engine

HIGH-VOLUME OUTPUT (HVO) DECK The HVO deck provides increased depth from the trim side to the discharge side to process greater material volume.

TUNNEL CHAMBER An advanced cutting chamber is formed by setting the blades back four inches from the front of the deck for less clumping and even grass dispersion.

CBT SYSTEM Our exclusive Constant Belt Tension System (CBT) ensures belt tension is maintained, keeping the blade tip speed and cutting results consistent.
